DETAILED ACTION

Receipt is acknowledged of applicant's Amendment filed 01/05/04.

Election/Restrictions

Claims 43 and 44 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected specie, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 18.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claims as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 33-42 and 45-54 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contain subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor, at the time the application was filed, had possession of the claimed invention. It appears that applicant's specification

does not provide support for the expressions “for reducing the initial average particle size” and “volume-weighted mean particle size value that is about 50% smaller than particles produced without the presence of the surfactant”. In accordance with the MPEP § 714.02, applicant should specifically point out support for any amendment made to the disclosure.

Response to Amendment

The reply filed on 07/03/03 is not fully responsive to the prior Office Action because of the following omissions or matters: it is noted that the Office Action dated 01/29/03 indicated that the application is in condition for allowance based on the preamble of claim 33. It appears that applicant inadvertently deleted the Markush group of surfactant, which was previously recited in claim 33. See 37 CFR 1.111. Accordingly, this application is in condition for allowance if the 112, 2nd paragraph is resolved, and the Markush group of surfactant is incorporated into claim 33.

Response to Arguments

Applicant's arguments filed 01/05/04 have been fully considered but they are not persuasive.

Applicant believes to be fully responsive to the Office Action dated January 29, 2003. Applicant pointed out that the amendment to claim 33 was suggested by the Examiner during the interview dated 01/23/03 and 01/27/03. The Examiner agrees with the Applicant that during the interview, the Examiner suggested to amend the claims

Art Unit: 1615

language to read similar to the claims of Parikh US 5,922,355. However, the indication of possible allowance was based on the preamble of claim 33 in the Amendment dated 11/04/02, which has the Markush group of surfactant. The suggestion during the interview dated 01/23/03 and 01/27/03 was simply to suggest Applicant to amend the claim language to include the steps of the method that read similar to that of Parikh, NOT the preamble of the claim. Accordingly, the indicated allowability of claim 33 is withdrawn in view of the non-responsive amendment.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
